INVITE
for
US-India Aviation Cooperation Program
Aviation Standards and Processes Technical Training

We are pleased to invite your organization to participate in a highly specialized aviation manufacturing training program offered under the auspices of US- India Aviation Cooperation Program (ACP) from October 2011 through March 2012.

The ACP, established in 2007 as a public-private partnership (PPP Model) between the US Federal Aviation Administration (FAA), the US Trade and Development Agency (USTDA), US Aviation companies and the Government of India.

The ACP supports the growth of the Indian civil aerospace sector by working directly with the Government of India to identify and execute projects that encourage collaboration between US and Indian stakeholders and provide access to US expertise, technology, and best practices. One of the activities taken up by ACP is Aviation Standards and Processes Technical Training program for Aviation manufacturing officers/professionals/engineers and technicians.

We are pleased to share that Hi-Tec Systems along with ACP members including Boeing, GE, Honeywell and Pratt & Whitney have organized specialized courses as part of this program. A number of useful training courses have been identified in consultation with several public and private sector civil aerospace agencies including DGCA, NAL and HAL to provide direct access to US expertise, technology, and best practices.

The Technical Training Program will commence on October 11, 2011 at Indian Aviation Academy (NIAMAR), New Delhi. The details of the courses offered during the month of October are as follows:

Tel (609) 272-1515 E-Mail: Kalpana.Jain@hitecsystems.com

We hope that your organization will take advantage of this opportunity and nominate participants for the courses which are sponsored by US Trade Development Agency (USTDA). We are sure that you will be greatly benefited from this state-of-art training opportunity to provide technical exposure and updates at no cost to you.

Please note that the cost of Boarding, Lodging and transportation is the responsibility of participants/Companies. However, we can assist you in arranging the boarding at the corporate rate at the Emporio Hotel, Dwarka and Royal Star Hotel, Dwarka in Delhi.

We are looking forward to your participation in the program.

Sincerely,

Dr. Kalpana Jain
Country Manager for India and
Vice President of Education and Training
